for

VITAL EVENTS REGISTRATION BOOK DIGITIZATION in Thatikandh Rural Municipality (Scanning and Entry)

PROCUREMENT OF NON-CONSULTING SERVICES

Contract: NP-DoCR-183656 -NC-RFB								
Project SSSPCR - Strengthening Systems for Social Protection and Civil Registration Project								
Expertise/Position: Procurement of Non-Consulting Services								
Source	National	Category	Non-Consulting Services					

1. Background:

STRENGTHENING SYSTEMS FOR SOCIAL PROTECTION AND CIVIL REGISTRATION (SSSPCR) is a national project implemented by the Department of National ID and Civil Registration (DoNIDCR) under the Ministry of Home Affairs and supported by the World Bank. The project supports the DONICR's Civil Registration (CR) and the Social Security Allowance (SSA) program and aims to improve the coverage of SSA and CR, and the delivery of SSA. Over a five-year period, the project is expected to support: (a) the establishment of a comprehensive National Population Register and expanded coverage of CR and SSA; and, (b) improved delivery of SSA via transition to e-payments in selected districts and improved overall business process for SSA service delivery. These will be supplemented by institutional strengthening at both central and local levels to ensure sustainability of the gains of the first two objectives.

The **Thatikandh Rural Municipality** is the agency charged with the responsibility of managing CR and administering the SSAs in Thatikandh Rural Municipality local level. Nepal's CR system started operating in the late 1970s and captures five vital events—birth, death, marriage, divorce, and migration. Besides its linkages to the SSA program, the CR system would also be a foundation for people's legal identities and their access to a range of public and private services. However, Nepal's CR system is under developed. The decentralized and paper-based recording of documents collected during registrations limits the potential usage of the information to generate vital statistics for planning and other purposes. Limited awareness among the population and difficulty in accessing local level offices have led to low registration rates and coverage. Transitioning to a digital CR system that is linked to a the SSA Beneficiary Register would facilitate improved coverage and delivery of both CR and SSA.

The project would contribute to the Government's long-term plan to strengthen administrative capacities to manage its most fundamental service delivery responsibilities, CR and SSA. Improved delivery is an essential, if not sufficient, condition to strengthen the impact of Nepal's social programs in protecting the vulnerable from adverse risks and shocks. Furthermore, comprehensive and up-to-date CR would facilitate people's access to legal identity and public services beyond SP (for example, primary education).

Objective of Digitization:

The main purpose of this assignment is to establish a well-organized and modern digitized record and archive system architecture through the establishment of procedures and storage of existing vital events registration book in digital form that facilitates easy access and sharing of vital events registration book within Local Registrar Office while taking into account security, accessibility, safety considerations related to vital events registration record.

This task specific objectives are as below:

• To improve the vital events registration records accessibility, accuracy, re-usability and reduce the paper-based storage

• To improve retention of institutional memory and knowledge management.

2. Objective of the Assignment:

The objective of this assignment is to:

- Collect information of existing vital events registration records from ward offices of Thatikandh Rural Municipality,
- Capture Image of registration books,
- Entry of vital events records of Birth, Death, Marriage, Migration and Divorced registration accurately.

3. Scope of Work:

The main task of the firm is to digitize the VER records as per the data digitization application provided by DoNIDCR. The firm will also have to scan the document and ensure quality control in the process of data entry.

The work to be carried out the following process:

Establish Digitization Center at Thatikandh Rural Municipality office					
Identify and Collect VER Registration Book Details					
Labeling Registration Book and fill controls form					
[Scan][Capture] Each Page of Vital Events Registration Book					
Enter records of vital events registration details of					
registration book					
[Upload][Synchronize] Digitized Record to the Central Server					
Print Digitized Records Report from Central Server and					
Recommend by Local Registrar					
Approved by Chief Administrative Officer of Rural Municipality/Municipality

Supervisor		

• Digitization of [] Municipality will be considered complete after approval of "Verification Report Form" by Chief Administrative Officer.

Data Backup and security:

- The firm should take full responsibility and ensure complete confidentiality, security and accountability of the Registration books and VER data (during transfer of registration book from ward office to work station, during digitization, until returned back to ward office).
- If data entry is done in offline mode then firm should keep timely backup of all the data entered in storage devices (external hard disk, pen drive etc.) so that no data are lost.
- Data from the storage device of particular local level can only be deleted after ensuring that all the data, folders, images, files are synchronized to the server.
- If any data are lost before synchronization to the server, firm will be responsible and has to re-enter the missing data.
- Activities of unauthorized access, usage and manipulation of data will be punishable according to the law of Government of Nepal.

Time Frame:

• Maximum time to complete data entry, scanning or capturing image, de-duplicating data and synchronizing to the central level will be a [Two] calendar months. The firm should propose appropriate mechanism to ensure quality of data entry, time assigned and confidentiality of the data.

Deliverables

- Inception report outlining the firm's overall implementation plan, activities and timeline [this would then be endorsed by Thatikandh Rural Municipality
- Complete digitized records (vital events data and captured image)
- Bi-weekly progress report reflecting risks and to-do tasks by Thatikandh Rural Municipality for mitigating such potential challenges/risks etc.
- Digitization work completion Report, registration book handover letter from local registrar and image/data synchronization to the center server.

Payment Terms and Schedule:

- Mobilization advance up to 20% of contract price on submission of bank guarantee
- 40% Amount to be paid as per the actual data entered in different categories.
- 40% on submission of Work completion report (WCR), verified and approved by CAO.

5. Experience of Firm and Staff

Experience of Firm

The ideal company for this assignment is expected to meet the following minimum requirements

- At least 2 (Two) years of experience in related work].
- Firm should have registered in government entity and [VAT][PAN].
- Firm should have latest Tax clearance certificate.
- [At Least 18000 data entry experience in related sector.]
 Data Entry Supervisor- One

Duties and Responsibilities

The Data Entry Supervisor supervise the Data Entry/digitization function by planning and coordinating the day-today production responsibilities and quality performance of the Thatikandh rural municipality.

- Train, motivate, monitor and evaluate performance of Data Entry staff on a continuous and ongoing basis.
- Develop and maintain Data Entry processes and procedures.

- Facilitate meetings as needed.
- Updates issues regarding quality, training, procedures, staff issues.
- Work closely with the [Local Level] and data entry operator meets and exceeds performance standards and goals for Data Entry and Image Capturing activities.
- Complete daily and weekly reports including progress and monitor performance.
- Perform other duties as assigned by Thatikandh Rural Municipalities office related to this assignment. Academic Qualification
 - At least Bachelors degree in any discipline

Experience

At least 1 years of hands on professional experience in data entry, scanning, data management

Skills

- Computer literacy.
- Effective problem-solving skills.
- Excellent people management skills.
- Excellent organizational, interpersonal, written, and verbal communication skills.
- Ability to communicate with team appropriately.
- Ability to perform comfortably in a fast-paced, deadline-oriented work environment.
